

Solidarity with Iran – SI Statement

In view of the fact that:

On Tuesday 29 November 2011, the 1st anniversary of martyrdom of the Iranian scientist and university professor, Majid Shahriari, who was assassinated by terrorists backed by the governments of Israel, US and UK, hundreds of Iranian youth lead by representatives of several organizations of university students hold a demonstration in front of the UK embassy in Tehran to demand closure of that embassy and to end relations of the government of Islamic Republic of Iran (IRI) with the government of UK,

In view of the fact that:

The demonstrations of Iranian youth took place after new round of economic sanctions and military threats by hegemonic powers headed by US & UK against the people of Iran,

In view of the fact that:

Such aggressions are in continuation of policies practiced by governments of the %1 rich capitalists of the imperialist countries during the past 33 years since the triumph of Iranian revolution, to deprive the people of Iran from their basic rights to self-determination and sovereignty, and finally,

In view of the fact that:

The rightful recent protest of Iranian students against the aggressive policies of UK government is being used as an excuse by the same government and its western allies to increase pressures against the Iranian people and government of IRI, to further deny their legitimate right to a peaceful life,

Therefore, I/We (please insert your name and/or the name of your organization) hereby declare my/our support for:

- The demands raised by the Iranian students at their Nov. 29 demonstrations in Tehran for an end to aggressions of UK government against Iran.
- The demand of freedom lovers of the world to lift economic sanctions and stop military threats against Iran.
